

SERGII GUPALOV

In 2005, he was one of the first who introduced the Finnish standards of production and business in Ukraine on the basis of cooperation between PJSC “Zaporozhye Heavy Crane-Building Plant” and Konecranes Finland Corp.

Since 2006, he has been engaged in the development of several international companies specializing in mechanical engineering, metal and woodworking, transport and logistics.

Under his leadership in Ukraine opened a representative of the Finnish company Suomen Keskusvarikko Oy ("EURO Machinery" LLC).
